

Whitman Amateur Radio Club MOTA (Meeting On The Air) 147.225Mhz +PL67  
February 18<sup>th</sup>, 2015  
Net Control: **Ross W1EKG**

- **Mike WA1MAD** is organizing his antenna building team and plans to kick this off when the weather improves.
- Everyone agreed committees w/a committee leader is a good idea for the Whitman clubs planned events this year.
- We have a leader commitment for the Plimouth Plantation event but need leaders for Field Day, The Flea Market, Marshfield Fair and the NearFest events.
- Incentives for folks to become committee leaders were discussed.  
Ideas discussed were:
  - shirts/polo shirts or ball caps for the leaders w/club logo, name and call sign added
  - special badges w/event details for the leaders and for committee participants along with special certificates w/name and call sign added.
  - Complimentary breakfast at Uncle Charlie's in Weymouth for the leaders.
  - Complimentary NearFest tickets for the leaders.
  - Waiving of membership dues for the year for the leaders.
- We discussed adding a new event: a Holiday party. It was suggested that due to weather issues, we have this in the early spring rather than in January or February (April or May). The idea of a Pot Luck dinner was made and possibly combining w/a snow blower repair clinic. The K/C hall would be used w/the dinner taking place at the conclusion of a shortened club meeting.
- Fox hunt participation incentives was suggested as a discussion point for a future meeting.
