Whitman Amateur Radio Club Field Day

Saturday June 25th VE test session by Steve W1OD

The VE team led by **Steve W1OD** were kind enough to run a VE testing session on Saturday at 1pm held at the lower pavilion.

In addition to **Steve W1OD**, the attending VE's were:

- **Karen N1VI**
- **Jim WG1L**
- **Bob K1NOK**
- **Ryan KG1ZX**
- **Jeff WK1D**

A total of six folks showed up for exams. In the end, three passed the Technicians exam and one passed the Extra exam (Whitman club member **Larry K1LJK**).

Thanks go to the VE's for running an exam session at Field Day for all of us. Well done.

I arrived at the Field day site at the East Bridgewater Y and set the 146.535 mhz Fox box just off a trail about 100 yards from the upper pavilion. This would provide an opportunity for those members who have wanted to try Fox Box hunting a low pressure location for first timers. Over the weekend I saw the following members find the Fox Box transmitter; **ROY KB1CYV**, **MIKE WA1MAD**, **JEFF N1SOM**, and **W1GQN**. Congratulations to these Fox finders. If anyone else participated please contact **RICHARD AG1B**.

Whitman Amateur Radio Club Field Day June 25th & 26th
wrap-up by event coordinator Mark KC1ACF

Comments from your Field Day coordinator

Hello to All,

I just wanted to share with you some comments on our 2016 field day operation. My question for the day is: How many people does it take to set up and run a Field Day weekend? I write this to offer thanks from an organizers point of view to all the people who make this happen. As I started collecting names, call signs and duties performed for this letter, I began to realize just how many folks contributed to such a great weekend. Here is the report of all the contributors of our fun weekend. If you are not listed, please contact **Mark, KC1ACF** for inclusion in this list.

Larry, K1LJK, You captured ALL of our happenings in what has to be our biggest newsletter ever! The field day coverage was amazing in that we had four photographers roaming about taking pictures throughout the weekend. I understand the time it takes to put all of those great pictures on one document. Great work, Larry, as always! Oh, and one more thing: Congratulations to you on getting your extra ticket!

Our antenna crew list is missing some people but I have **Loren, N1IQI**, **Barry, N1EZH**, **Jeff, WK1D**, (excellent job on the launcher, Jeff), **Joe, K1JMA**, **Paul, KB1MTW**, **Mike, WA1MAD**, **Jim, NM1F**, and **Bruce, W1CVE**.

The food may be arguably the most important component of the weekend. Our thanks to **Karen, N1VI**, **Steve, W1OD** and **Bob, K1NOK** for doing a great job keeping us all well fed!

Paul, KB1MTW was seen transporting equipment throughout the weekend and solving problems for everybody.

Jeff, N1ZZN, took on the task of getting us all on laptops. He was successful in collecting all contacts without paper for the first time ever at Field Day! There was one old guy that held off recording his contacts on a laptop. By Sunday afternoon I finally stepped up to the plate and switched over to electronic logging!

As **Bruce, NI1X-SK** used to say: If you do not have a picture, it did not happen. What great pictures of the entire event! The 2016 Field Day was captured by the able work of **Jeff, N1SOM**, **Jeff, WK1D**, **Bob, K1NOK**, (great captions, Bob) **Barry, N1EZH**, and **Richard, AG1B**. **Bruce, NI1X-SK**, would be proud of you!

Those folks who ran the VE sessions are to be congratulated as well. The VE Team was ably led by **Steve, W1OD** and helped by **Karen, N1VI**, **Bob, K1NOK**, **Jeff, WK1D**, **Jim, WG1L** and **Ryan, KG1ZX**. Nice work getting some more hams on the air!

I was very impressed with the large signs we had out in front of the YMCA this year. Thank you **Karen, N1VI** for your nice banner and thanks to All who helped with this important task.

My safety guy in charge was **John, KC1DWY**. He did a great job watching out for foot and car traffic near guy wires and cables. He also helped guide cars and campers to their parking area. Thanks John!

Gary, AB1CQ, managed to collect all of our data for the weekend. I believe he indicated we made around 400 contacts! Thanks Gary!

So, my final point for all of this is: How many hams does it take to set up and run a Field Day operation like ours? Well, we had twenty-five plus people set up and run various parts of our Field Day. There were thirty-eight jobs completed by these folks altogether, (some working on the same project, food, antennas, photos Etc.). What a great team we are for getting our Field Day prepared, set up and operating! It was a substantial effort from a lot of people to complete our very successful 2016 Field Day operation!

73, **Mark KC1ACF**
