Old Business:

- **Joe K1JMA** thanked everyone who attended NEAR-Fest recently and volunteered their time and efforts supporting the Whitman Club. Joe mentioned \$231.75 in tables sales took place.

New Business:

- **Joe K1JMA** directed everyone's attention to samples of club jackets hanging at the front of the room. The samples, in various sizes and colors, were from a different vendor than the one used in the past for club jackets. Members were able to examine and try on the samples after the meeting. If there's enough interest in ordering jackets, Joe will arrange this at the December club meeting. **Ross W1EKG** inquired about club T-Shirts? Joe is investigating club T-Shirts and hats for the spring.

- **Joe K1JMA** informed everyone that he is engaging with the Plimoth Plantation management in order to confirm our use of their facilities for our annual Thanksgiving weekend special event. It was noted **Jeff N1ZZN** had the event details listed in the December QST magazine with the **NI1X** callsign (for this year and next year). Assuming our use of the Plantation is approved, the antenna/station setup will be Friday November 24th, with folks meeting at 10am in the lower bus parking lot. **Paul KB1MTW** will be coordinating the equipment pickup at the quonset hut earlier that morning. Operations will take place from 9am-3pm on Saturday and Sunday November 25th and 26th. Take down will begin at 3pm on Sunday.

- **Mike WA1MAD** asked if our ARRL club status is in good standing or had it lapsed? **Jeff N1ZZN** commented that our current roster has to be submitted to the ARRL again for membership evaluation. At least 50% of our membership must be ARRL members for our club to be in good ARRL standing. As a sample evaluation, **Joe K1JMA** had the meeting attendance log recirculated and asked folks to indicate if they are ARRL members. (note: 53% of the attending membership were ARRL members)

- **Paul KB1MTW** pointed out the clubs Yaesu FT450, which is used for Field Day, Marshfield Fair and Plimoth Plantation events was using an older transformer based power supply (which was very heavy). In order to lessen the weight when transporting this equipment, it was decided to purchase a smaller, lighter 30A switching power supply at the recent NEAR-Fest event.
- **Mike WA1MAD** reminded the club that even though his involvement is over, anyone who still wants a new ID badge w/your picture on the front and your FCC license on the back can contact HAMCRAZY.com. **Joe K1JMA** thanked Mike for arranging this.
